Profile

As a lifelong learner, I'm constantly expanding my skill set through professional and personal experiences. I believe that I have strong communication and problem-solving skills. Looking for a position with a highly regarded organization.

Experience

I'm a fresher and looking for a position with a highly reputed organization. I'm highly interested in Software Engineering and Data Science.
I have worked on some projects and among them two are my own projects (Faculty_reviewer_Mobile_App and Real fake face detection(DFD)) and others are group projects (Document_Digitization and Faculty-Reviewer-For-NSUsers). Besides, there is an NLP group project on Bangla language going on.
